

PROJECT CHARTER	
<b>Project Name</b>	No More waste
<b>Date Produced</b>	Oct 1st, 2022
<b>Project Goals</b>	The goal of this project is to create a progressive web app to connect restaurants with local shelters to reduce food waste. The application will make it easier for restaurants to reduce their food waste by donating it to local shelters.
<b>Project Objectives</b>	<ol style="list-style-type: none"> <li>1. Restaurants will be able to create donation posts.</li> <li>2. Shelters will be able to accept those donations.</li> <li>3. Restaurants and shelters will be matched with volunteer drivers who will pick up the food from the restaurants and then deliver it to shelters.</li> <li>4. The app will have a chat feature where restaurants/shelters will be able to communicate with the volunteer drivers.</li> <li>5. The app will also have a notification system that will notify the restaurants and shelters about driver status etc.</li> </ol>
<b>Project Budget</b>	<ol style="list-style-type: none"> <li>1. Hosting services.</li> <li>2. Team of 3 developers until April 2023.</li> </ol>
<b>Project Sponsor</b>	Dr. Timothy Maciag, ENSE400/477 professor
<b>Project Manager</b>	Bulbul Arora, Full Stack Developer
<b>Additional Key Project Stakeholders</b>	
<ol style="list-style-type: none"> <li>1. Arika Pasha – Backend Developer</li> <li>2. Bulbul Arora – Full Stack Developer</li> <li>3. Faizah Kolapo – Frontend Developer</li> </ol>	
Overall Project Milestones	Dates
<ul style="list-style-type: none"> <li>• Documentation</li> <li>• Lo-Fi prototypes</li> <li>• Coding begins</li> <li>• MVP #1</li> </ul>	<p>Oct 4<sup>th</sup>, 2022</p> <p>Oct 10<sup>th</sup>, 2022</p> <p>Oct 15<sup>th</sup>, 2022</p> <p>Dec 6<sup>th</sup>, 2022</p>
<b>Overall Project Risks</b>	

- Time
- Learning a new technology could be time consuming.
- General scope.
